Remove contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid immediately.

Following ingestion:

If swallowed, avoid prolonged, do not induce vomiting and call a physician immediately.

Notes for the doctor:

Treat symptomatically and supportively.

Treatment may vary with condition of victim and specifics of incident.

4.2 Most important symptoms and effects, both acute and delayed

Repeated exposure may cause skin dryness or cracking.

Vapours may cause eyes irritation. Vapours may cause drowsiness and dizziness.
